

USOS – Generating Grading Tables for the Egracons project

Janina Mincer-Daszkiewicz, Anna Olczak
University of Warsaw

STT Week in Warsaw 2015-06-17

Tool for data export

- USOS University Study-Oriented System
- Developed in-house since 2000
- Owned by MUCI consortium
- Used by over 45 Polish Higher Education Institutions
- Simple Oracle form for exporting data in CSV format
- File uploaded to Excel to develop diagrams and statistics
- Can be used for various purposes:
 - Egracons grading tabels
 - Diagrams for diploma supplement

Selecting data – many options

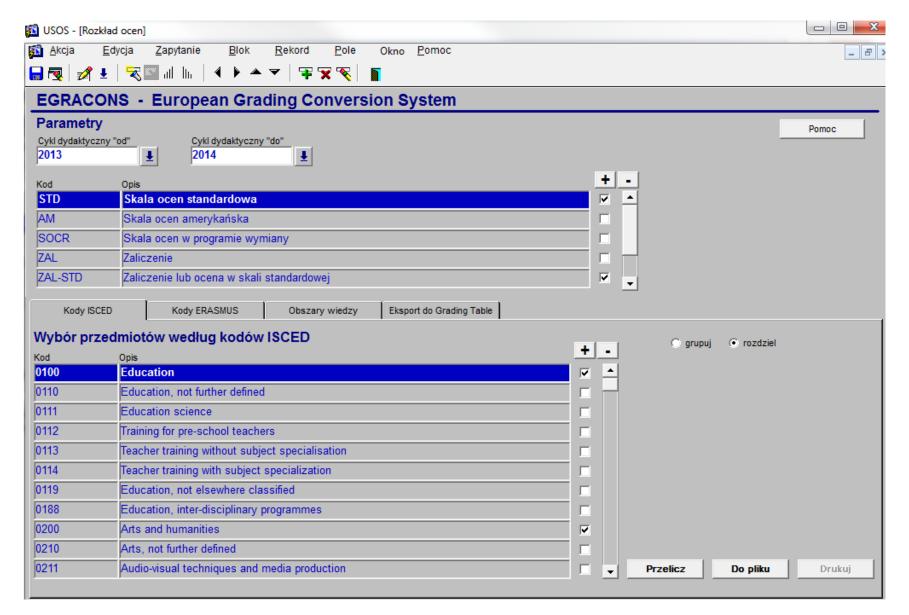

- Selecting time period
 (first academic year, last academic year)
- Selecting courses by
 - Course ISCED'2013 code
 - Course Erasmus code
 - Area of knowledge of study programme
- Selecting grading schemas
- Selecting exam reports
- Data may be freely grouped

Observations

- There is difference between:
 - study levels: BA, MA (better grades at Master level, too many very good grades?)
 - **ISCED categories** (worse grades in social sciences, journalism, business and administration, law than in education, arts and humanities, ICT)
 - What is the reason: students, teachers, grading culture?
- There is not much difference between data obtained for various time ranges: 2013, 2012-2013, 2011-2013, 2010-2013, 2009-2013

To be done

- Careful statistical analysis
- Choosing proper grouping level and time range
- Preparing diagrams for diploma supplements
- Diploma supplement generated from USOS with appropriate diagram attached
- Automatic grade conversion in European projects
 EMREX and Erasmus Without Paper
